THE RIGHT PLAN FOR YOUR PET

Our staff has created these comprehensive wellness plans with you and your pet in mind. We have taken the utmost care to include all of the preventative service options we believe are essential in keeping every dog and cat healthy and happy, during every stage of life, while saving you money.

EARLY DETECTION IS KEY

to preventing and managing many diseases and reducing costly medical bills. We recommend six month wellness visits, yearly blood work, parasite screening and treatment, plus core vaccines tailored to your pet's lifestyle. This gives you the best chance of preventing, detecting, and managing illness down the road for your pet.

RECEIVE AN ADDED BONUS

Wellness plans are for preventive care services only, not sick care. **All plans offer an additional 5-10% discount** on other services not covered. **Plan members also have the added bonus of a 50% discount** on 2 additional examinations per year which may be used for additional wellness or sick visits. Separate pet insurance plans are available to defray the cost of sick appointments.

CANCEL AT ANY TIME

All plan services must be utilized by the end of the plan year. Unused services cannot be carried over to the next year. You may change your plan at the renewal date. You may cancel the plan at any time. Simply provide your request in writing, by certified mail, 30 days prior to the desired cancellation date. If canceling during the term year, additional charges may apply. Wellness plans automatically renew on their anniversary date each year unless owners notify us in writing, by certified mail, at least 30 days in advance.
